IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of

Express Mail No. EF412894718US

Richard John KNIGHT et al.

Filed: Concurrently herewith

PCT/GB99/02691

- filed August 16, 1999

For: COMMUNICATIONS NETWORK

PRELIMINARY AMENDMENT

Assistant Commissioner of Patents
Washington, D.C. 20231

Sir:

Prior to calculation of the fee for the above-identified PCT application, and prior to initial examination, please amend the application as follows:

IN THE CLAIMS:

Please enter the following amended claims:

1. A communications network for transferring data in accordance with a transfer priority number, the network having a number of switching nodes which transfer data transmitted between end stations coupled to the network, each switching node comprising:
 - a store for storing data prior to transfer;
 - a monitor for monitoring the volume of data being transferred through the switching node;
 - a comparator for comparing the volume of data to a first predetermined threshold; and,
 - a signal generator for generating a congestion signal if the respective volume of traffic exceeds the first predetermined threshold, wherein the adjacent switching nodes and/or end
